Municipal Plans, Programs, and Operations Survey 2014 Results

Working Committees
September, 2014

Background

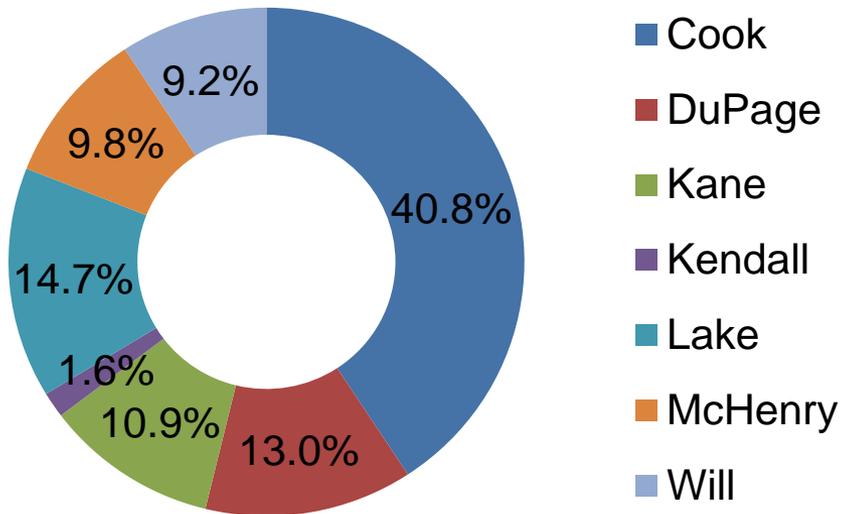

- Biennial since 2010
- Purpose: update regional indicators data, gauge demand for technical assistance projects, and inform policy analysis
- A new direction: the 2014 municipal survey opted for fewer items and attempted to ascertain more information to guide CMAP activities

Response

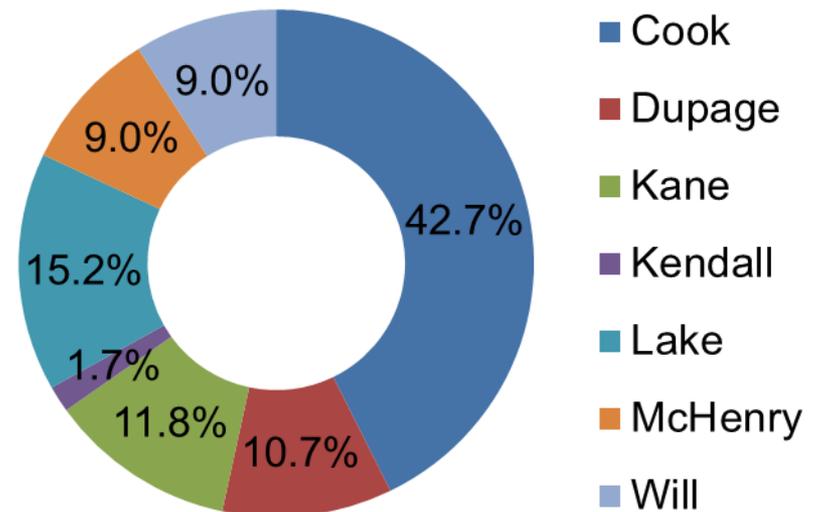

Response	2012	2014
# Municipalities	184	177
% Municipalities	64.7%	62.3%

Response

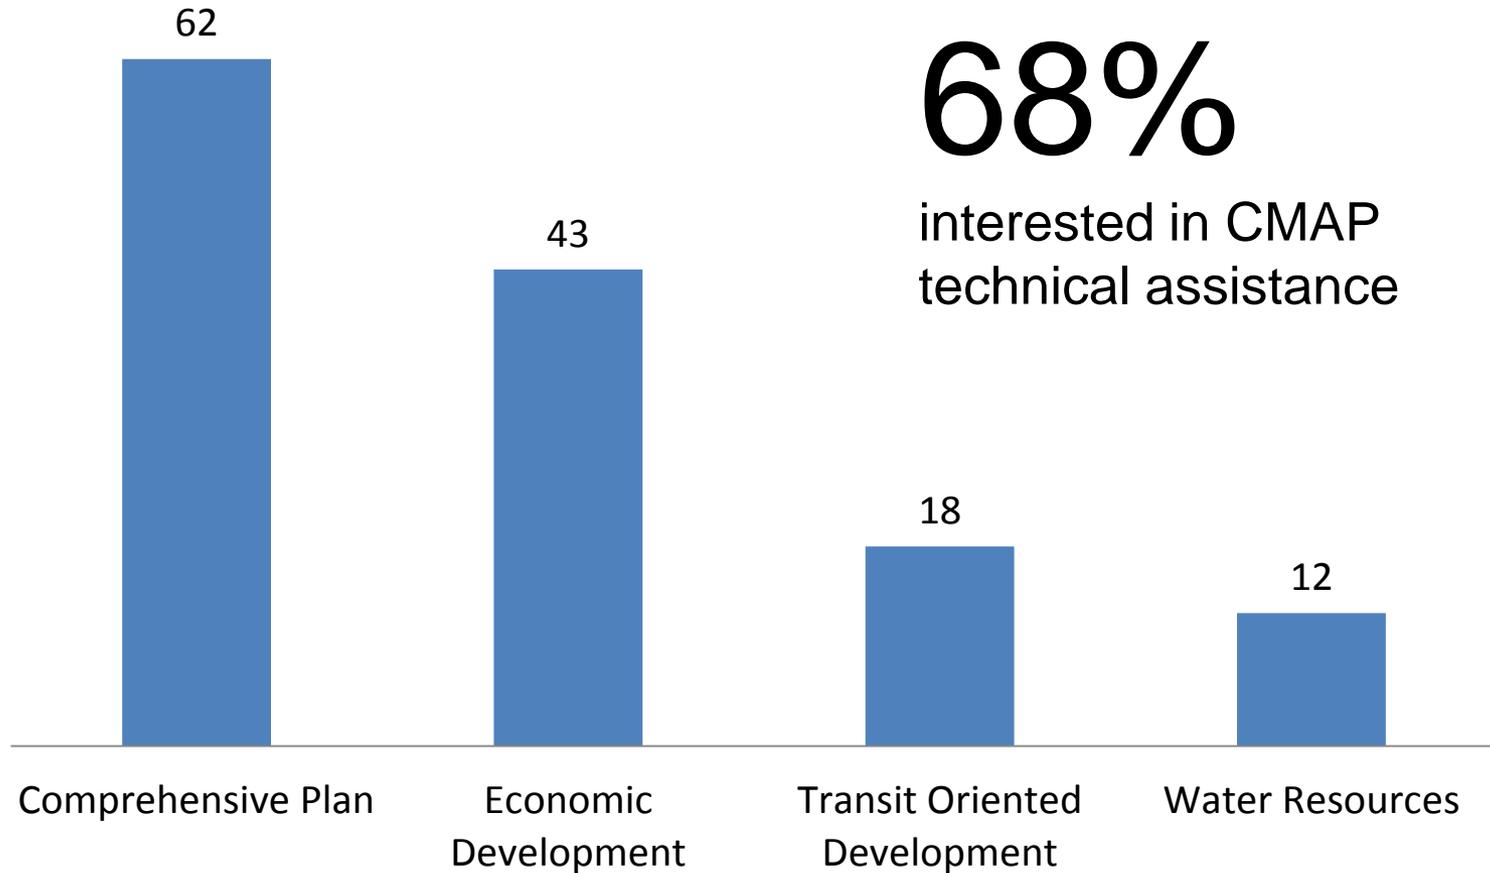

Percent of Survey Respondents by County 2012

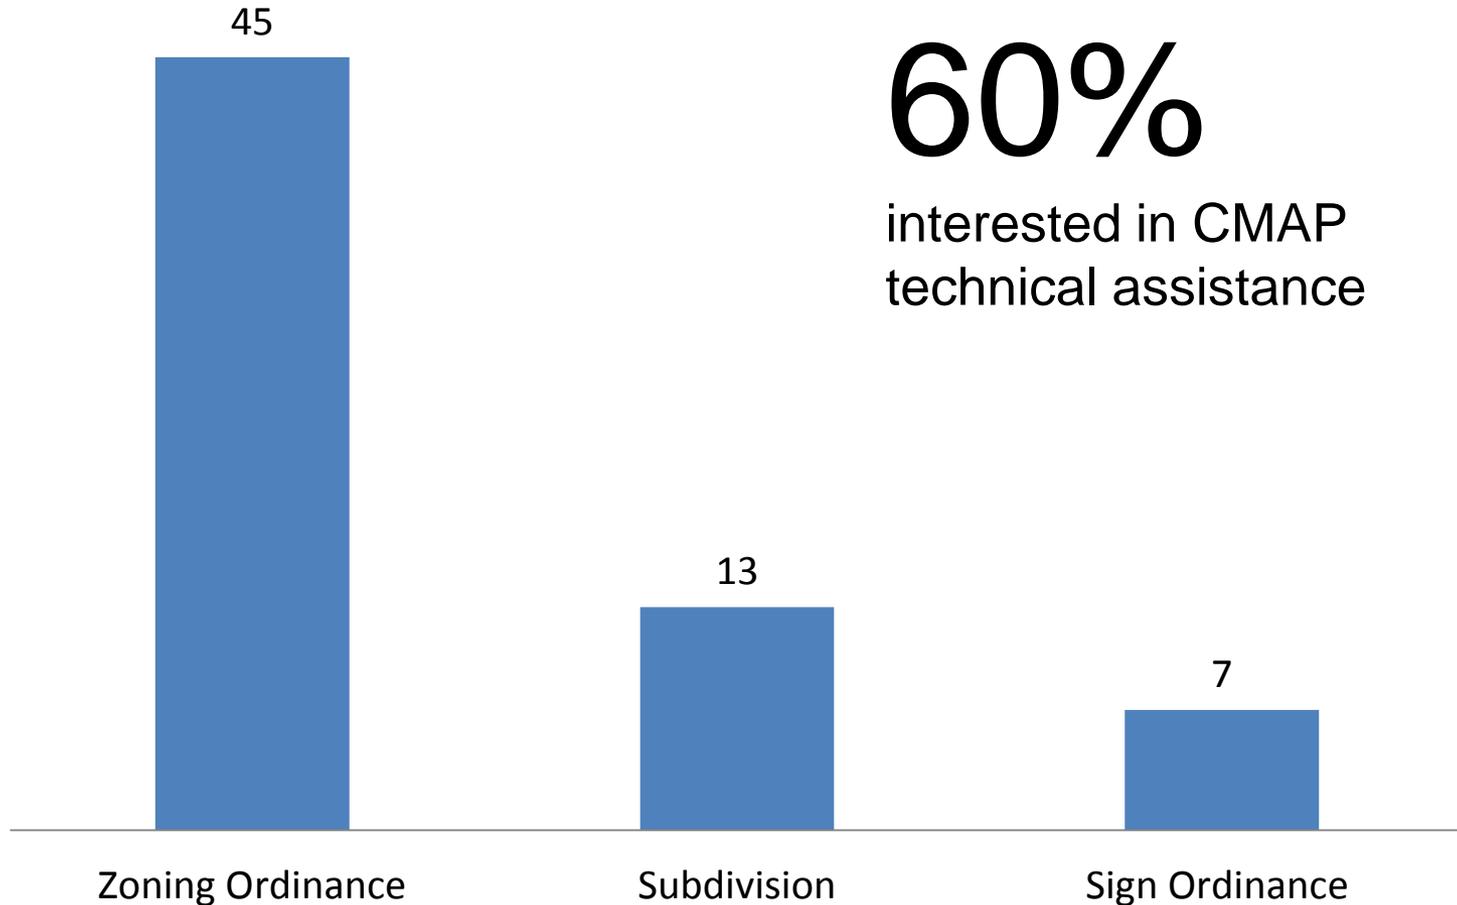

Percent of Survey Respondents County 2014

Priority Planning Projects

Priority Regulatory Projects

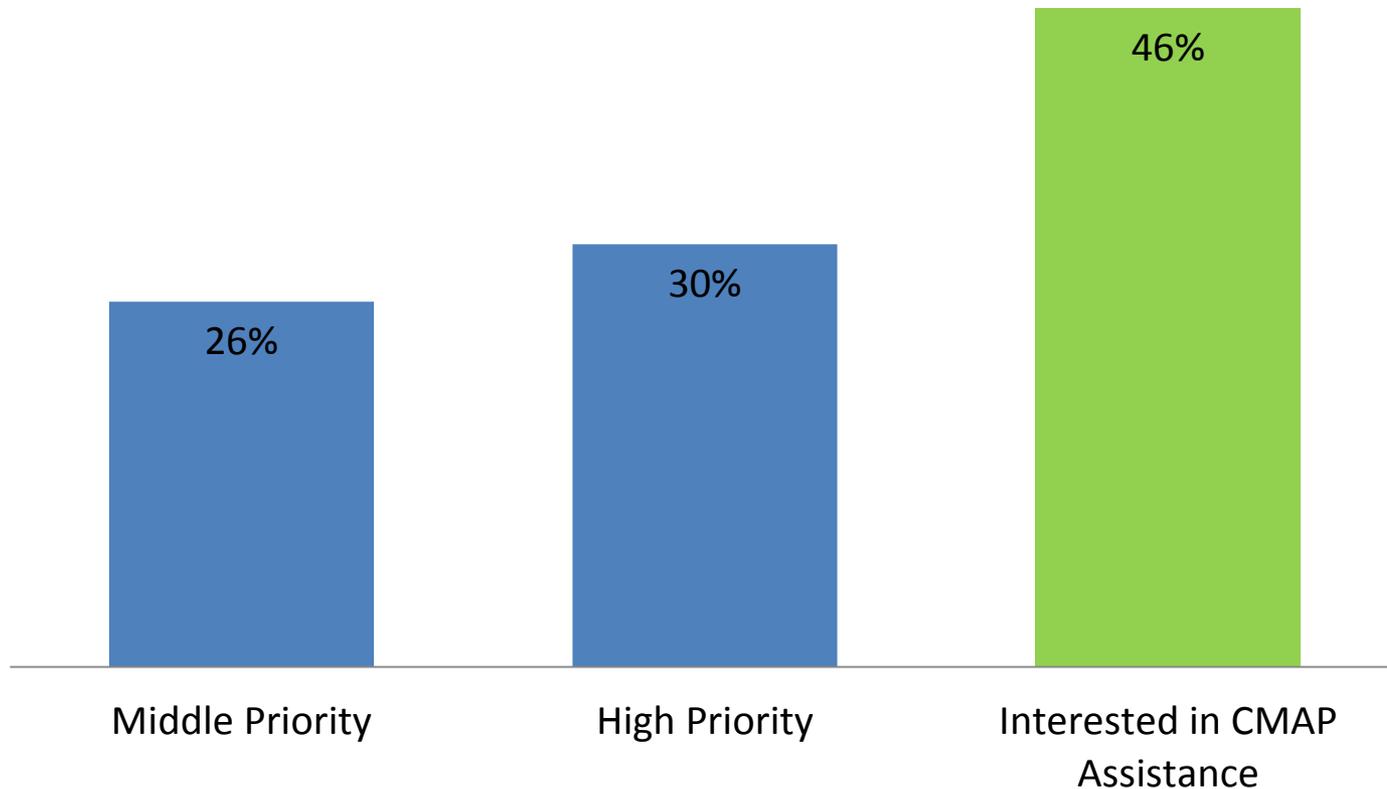

Gauging demand for implementation projects

- CMAP's Local Technical Assistance (LTA) program will increasingly focus on plan implementation in the coming years.
- The model plans, ordinances, and codes project will be used for internal research and development of topics identified by the municipal survey.

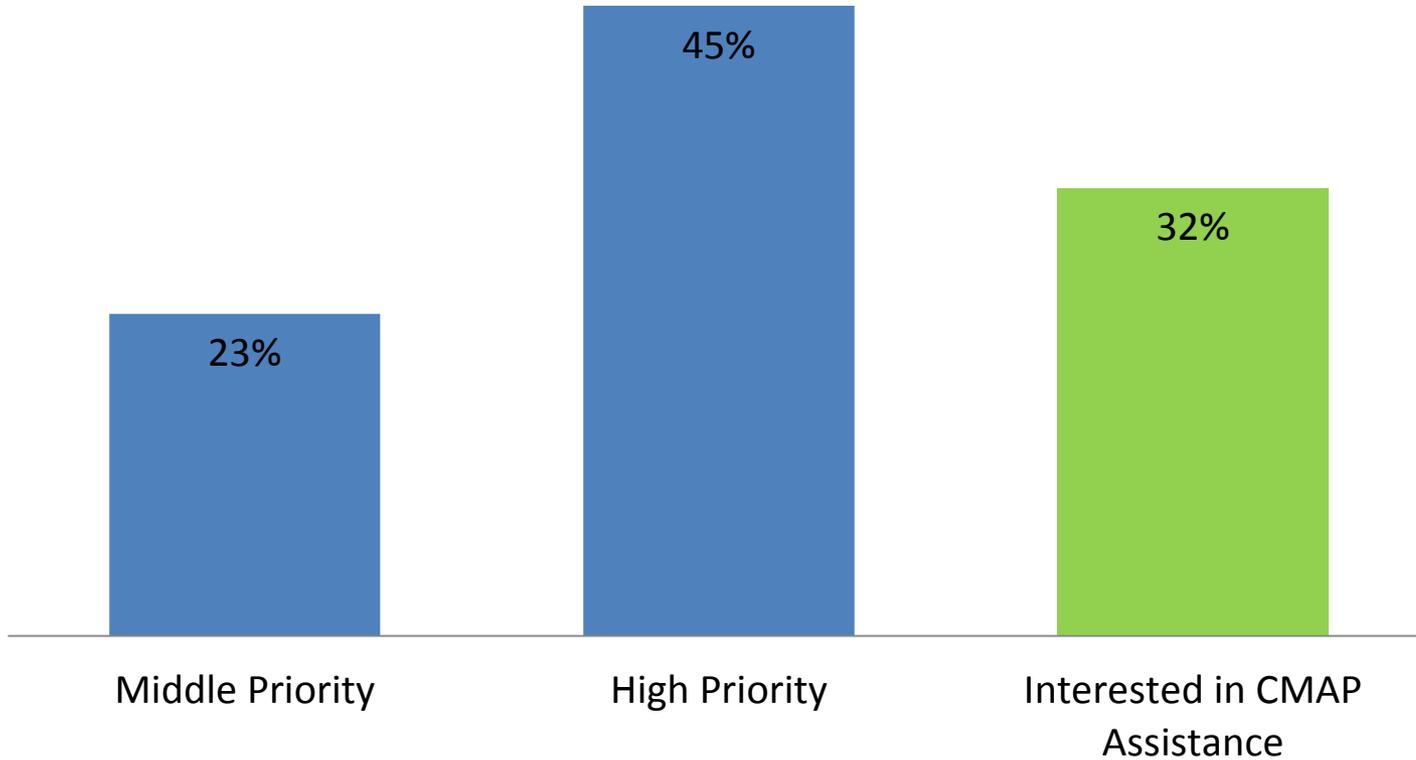

Implementation Project: Strategic Plan

Produce a Strategic Plan in the Next Two Years

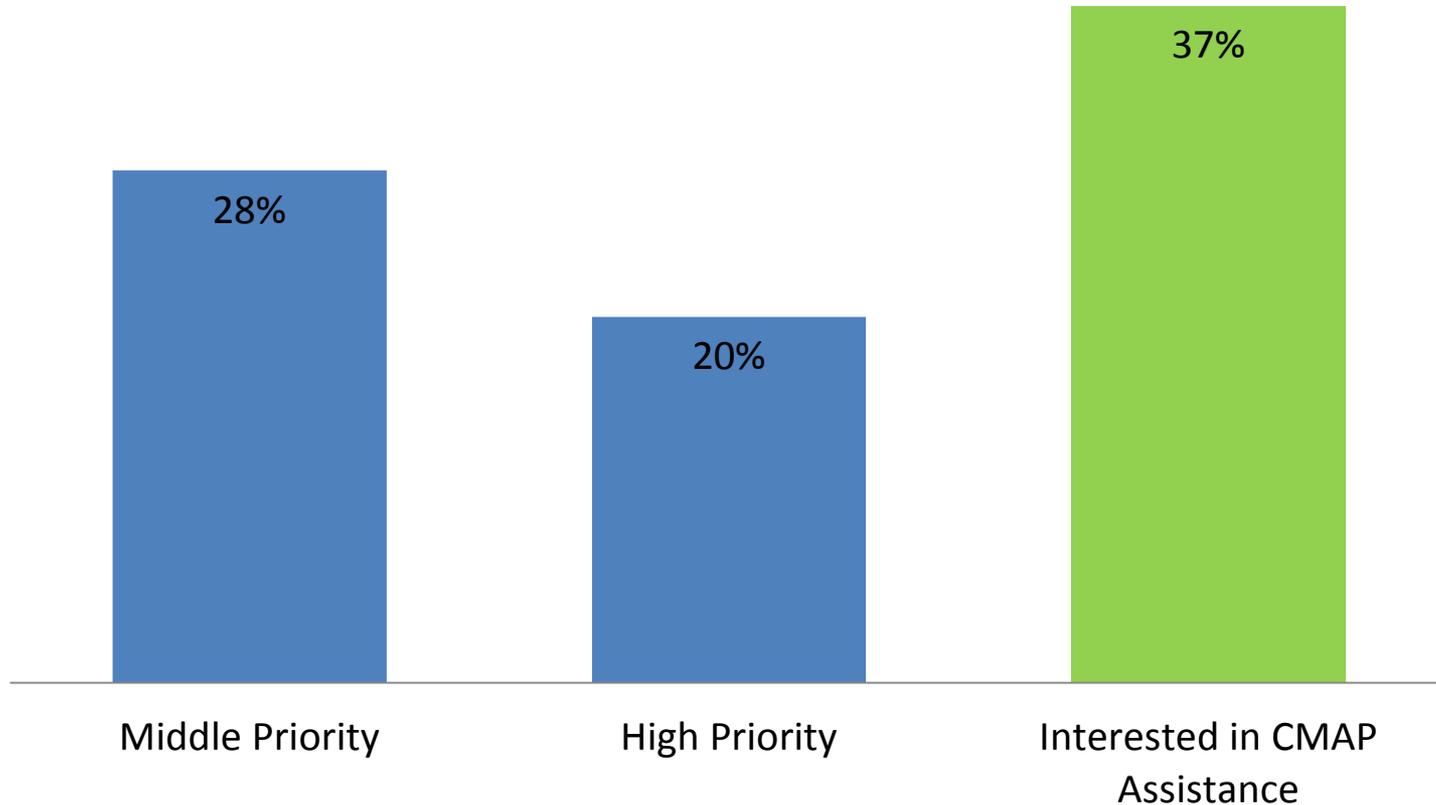

Implementation Project: Capital Improvement Program (CIP)

Develop or Update a CIP in the Next Two Years

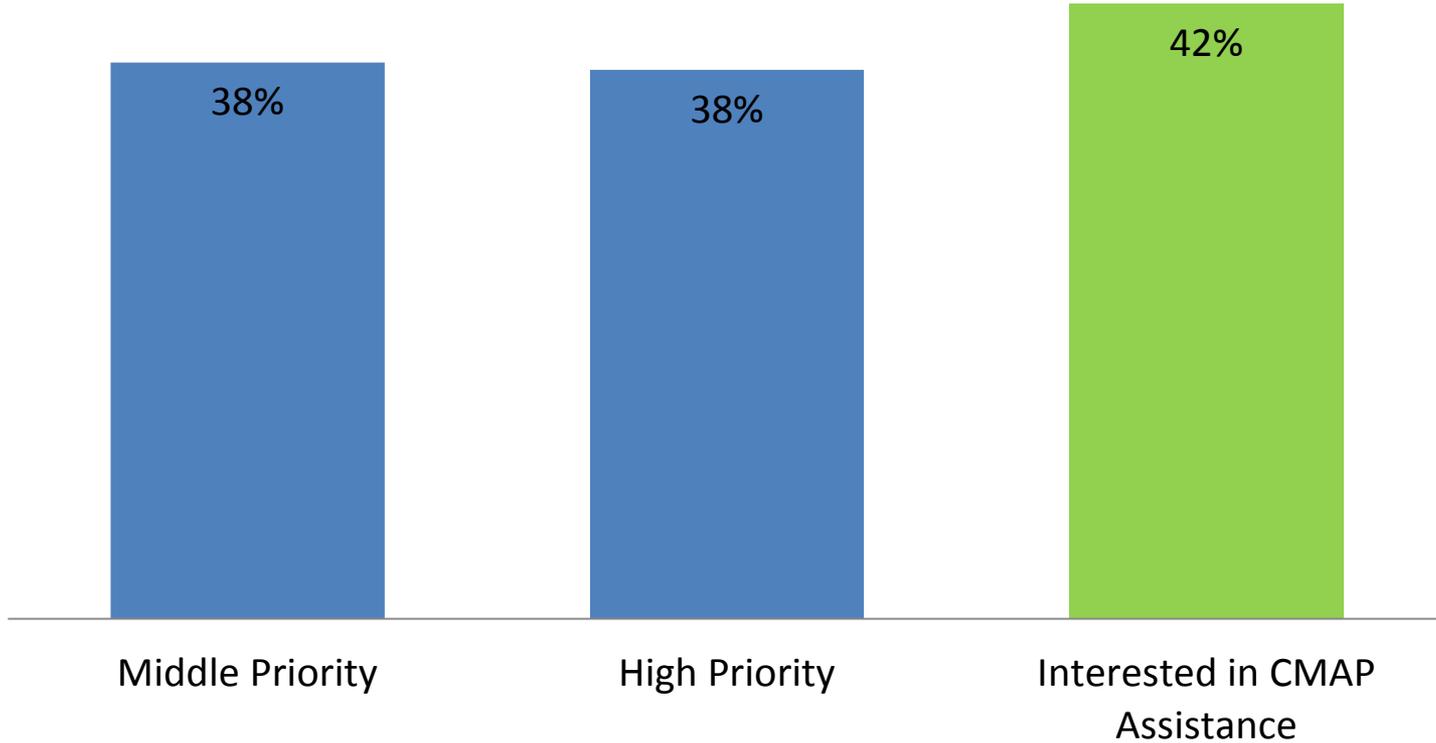

Implementation Project: Attract Development to a Specific Site

Attract Development to a Specific Site in the Next Two Years

Implementation Project: Outreach

Outreach to Residents/Public Engagement in Next Two Years

Discussion

- The types of projects currently undertaken by CMAP staff through the LTA program continue to be in high demand.
- Significant demand exists for projects that would support local governments in plan implementation.
- What are the best methods to meet the demands identified by the municipal survey?
 - direct technical assistance
 - workshops
 - other methods?
